ABOUT THE RELEASE

Quickly rising indie rock band The Double Nines is excited to announce the release of their new single, “Modern Love,” set to drop on November 20th. This latest offering blends nostalgic synth-pop with contemporary rock elements, creating a fresh and captivating sound.

“Modern Love” delves into the complexities of modern relationships, contrasting idealized love with the realities of contemporary connections. The track’s poignant lyrics, penned by songwriter Tyler Austin, invite listeners to reflect on their own experiences.

“Love isn't like the way it is on the movie screens” says Tyler.

From the press of play, listeners are introduced to the feel-good vibes of “Modern Love.” With euphoric guitar riffs and an upbeat drumline, the single will resonate with all listeners.

The Double Nines will be performing “Modern Love” live at Loopfest, the West Midlands’ premier music festival. This high-energy performance will showcase the band’s dynamic stage presence and their ability to connect with audiences.

“Modern Love” will be available on all major streaming platforms.
